JOHN DELIYIANNIS

Senior Ruby on Rails & Full-Stack Engineer

CORE LONG-TERM EXPERIENCE

Protio protio.gr
2024 — Present
Team Lead & Ruby on Rails Developer
› Leading engineering for a real estate marketplace platform, shaping architecture, delivery, and day-to-day technical direction

`Ruby on Rails` `React` `PostgreSQL` `AWS`

IFAD ifad.org
May 2022 — Dec 2024
Ruby on Rails Developer, Contract
› Delivered workflow automation features that reduced manual internal processes and improved operational consistency
› Implemented granular role-based access control to support complex permissions across the platform

`Ruby on Rails` `PostgreSQL`

Collaborate247 collaborate247.com
2019 — 2021
Co-Founder & Senior Ruby on Rails Engineer
› Built and launched a digital health product for doctors managing chronic care workflows
› Joined as the first engineer and owned the stack across Rails, React, and later Stimulus/Hotwire
› Helped grow the team to six developers and led delivery of the first React Native mobile apps

`Ruby on Rails` `Hotwire` `React Native` `Heroku`

Denteo denteo.ch
2017 — 2019
Ruby on Rails Developer
› Built core features for a dental workflow platform covering invoicing, diagnostics, data capture, and recommendations
› Implemented APIs for integration with external dental hardware and connected systems

`Ruby on Rails` `React` `PostgreSQL`

Nimber nimber.com
2015 — 2017
Ruby on Rails Developer
› Built API capabilities for a marketplace product serving web, mobile, and tvOS clients
› Designed the Stripe-based payment system from scratch and owned production reliability

`Ruby on Rails` `Grape` `AWS` `Stripe`

Earlier Experience
Nov 2008 — Dec 2015
Ruby on Rails & Web Developer · Cluey, CLONE SYSTEMS, VisionMobile, AtNet
› Earlier roles include Cluey (Apr 2013 — Dec 2015), CLONE SYSTEMS (Sep 2011 — Jan 2013), VisionMobile (Jun 2010 — Nov 2011), and AtNet (Nov 2008 — Aug 2009)

`Ruby on Rails` `MySQL` `Ember.js` `C#`

SELECTED PROJECT-BASED WORK

Drafa drafa.app
2025
Full-Stack & Mobile Developer
› Built a sports venue booking product end-to-end across a Rails API and React Native mobile app
› Implemented real-time booking flows with Redis-backed scheduling and owner-facing management tools

`Ruby on Rails` `Redis` `React Native` `PostgreSQL`

Lynx Educate lynxeducate.com
2023
DevOps & Senior Ruby on Rails Developer
› Supported SOC 2 readiness by improving security policies, access controls, and audit processes

`Ruby on Rails` `AWS` `SOC 2`

Align Technology aligntech.com
2021 — 2022 6 months
Ruby on Rails Developer
› Contributed to backend systems at enterprise scale, shipping within a large global engineering organization

`Ruby` `Docker` `Jenkins`

Klarna klarna.com
Sep 2021 — Mar 2022 7 months
Ruby Developer
› Scaled a high-traffic Ruby service ahead of Black Friday from 50k RPM to 150k RPM, improving peak-period reliability

`Ruby` `Grape` `Docker` `Jenkins`
